Peek at our Week

HIGHLIGHTS

This week in Science, we began exploring landforms and changes to Earth's surface. We focused on water and why rivers flow.

In Reading, we began our study of nonfiction texts. We are utilizing text features such as the glossary, bold words, maps, photographs and the table of contents. Students are also working on identifying the main topic of a nonfiction text.

In Writing, we assessed personal narrative writing and began working on our first informative piece about fall.

In Math, we explored strategies for adding double digit numbers.
See attached slide for extra practice

REMINDERS

This week we celebrated two birthdays.
Happy Birthday, Lucy!
Happy Birthday Brian!

There is **NO SCHOOL Friday, October 8th.** (Teacher Institute Day)

NO SCHOOL - Monday, October 11th
(Indigenous Peoples Day)

Late Start Day - Wednesday, October 13 (School begins at 9:20)

Picture Retake Day is Rescheduled- for **Monday, November 1**

Adding 2-Digit Numbers Practice Ideas for Home

Hundreds Chart Strategy

Give your child two 2-digit numbers to add.

Move **down** to add tens.
Move **right** to add ones.

Steps Example of Solving 23+46.
Step 1 – Find **23** and **circle** it.

Step 2 – Break apart the second number, 46.
46 has **4 tens** and **6 ones**.

Step 3 – Start at 23. Add 4 tens by moving **down 4 rows**. This takes you to 63.

Step 4 – Now you need to add 6 ones by moving **right 6 spaces**. This takes you to 69. So, **23+46=69**.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80

91	92	93	94	95	96	97	98	99	100

Adding 2-Digit Numbers Practice Ideas for Home

Open Number Line Strategy

Give your child two 2-digit numbers to add.

Draw a line.

Your starting number is your first addend.
(Place this on the far left of the number line.)

Please note students can choose either number as their starting number. At first, we tend to choose the first addend so that students get comfortable with the strategy.

Make hops of tens and ones according to the number you are adding on. Where you land is the sum.

Steps Example of Solving 28+43.

Step 1 – Write **28** on the far left of the number line.

Step 2 – Break apart the second number, 43.
43 has **4 tens** and **3 ones**.

Step 3 – Start at 28. Draw 4 hops of ten. This takes you to 68.

Step 4 – Draw 3 ones hops. This takes you to 71. So, **28+43=71.**

+10 +10 +10 +10 +1 +1 +1

28   38   48   58   68 69 70 71
